Introduction

Decentralized finance (DeFi) has gained immense popularity over the past few years, and decentralized exchanges (DEXs) have become a vital component of the DeFi ecosystem. ELON CAT FINANCE DEX will be leveraging the Solana blockchain's fast and low-cost transactions. ELON CAT FINANCE DEX introduces native ECAT token, designed to create a self-sustaining ecosystem with useful utility, rewarding its holders and providing an efficient economic model.

Solana Blockchain

Solana is a high-performance, decentralized blockchain that offers fast transactions at a low cost. Solana's unique architecture provides scalability without sacrificing decentralization and security. Its innovative Proof of History consensus mechanism allows the network to process thousands of transactions per second, making it a blockchain that is fast, secure and reliable.

ELON CAT FINANCE DEX

Elon Cat Finance Dex is a decentralized exchange (DEX) built on the Solana blockchain, which leverages the power and speed of the Solana network and provides its own ELON CAT (ECAT) token. ELON CAT core features include:

- Safe - The project is audited: <https://coinsult.net/projects/elon-cat-finance>
- High liquidity
- Fast and secure trading
- Non-custodial trading, maintaining users' control of their assets
- 51% of total raised will be added to Liquidity automatically at the end of the presale

ECAT Tokenomics

The ECAT token serves as the native currency for the ELON CAT FINANCE platform. It plays a vital role in incentivizing holders and promoting a sustainable ecosystem.

Token Name	ELON CAT FINANCE
Token Symbol	ECAT
Decimal Places	9
Total Supply	10 billion ECAT

ECAT Token Distribution

The total supply of 10 billion ECAT will be distributed as follows:

Presale	4.5 billion ECAT (45%)
Stakers Rewards for a year	3 billion ECAT (30%)
Liquidity	2.2 billion ECAT (22%)
Team & Marketing	0.3 billion CAT (3%)
Softcap	10 SOL

ECAT Token Utility

The ECAT token serves multiple purposes:

45% of tokens will be allocated for the presale, with 51% of total raised at will be added to Liquidity automatically at the end of the presale, benefiting both initial investors and long-term holders.

- **Native DEX:** The token will be launched in Q2 2024, and will be tradable directly on the ELON CAT FINANCE website.
- **Long-term ECAT value:** Due to fixed total supply without minting, the value of the ECAT token is likely to increase over time.
- **Staking Rewards:** Users can stake their ECAT tokens to earn passive income and help secure the platform (after staking will be launched in Q2 2024, both for single token and LP).
- **ECAT Router:** Planned to be implemented in Q4 2024.
